

## Accessing Your Results on Campus Connect

**STEP 1** Log in to [Campus Connect](#)

### **STEP 2**

Select the “My Progressions” card, then “View My Progression”. This will open a new page with your progression information.

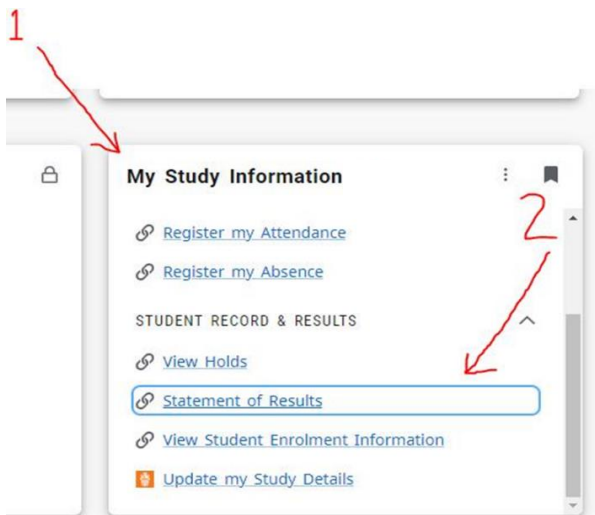

Your progression information will tell you if you have progressed/been awarded and what, if any, actions you need to take next.

**Please read this very carefully and follow any instructions.**

*An example of the type of text you might see is available at the end of this guide.*

*Please remember this is just an example – your progression decision may be different and the text will be different accordingly.*

### **STEP 3**

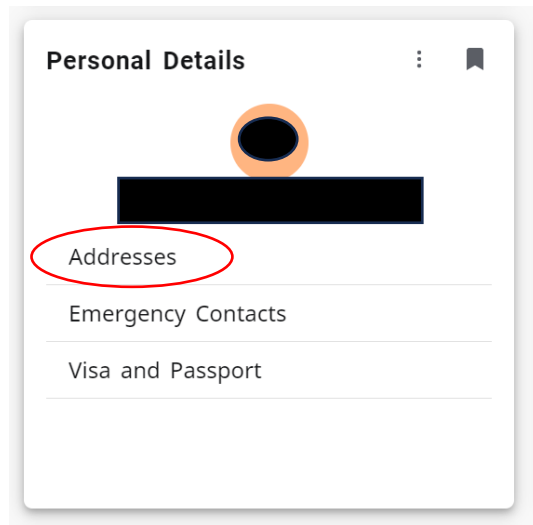

To access a statement of your results, including your individual module marks: go to the “**My Study Information**” card and click on “**Statement of Results**”. A new window will open with a printable statement of results (once the page has opened, click “Submit”)

*Next page*

## STEP 4 (For students who are graduating)

Please make sure that you update your forwarding address as soon as possible after release of results to ensure that your transcript and degree certificate are sent to the correct place.

To do this, go to the “**Personal Details**” card and select “**Addresses**”. Under your forwarding address select the pen icon to make any changes or the + icon to add a forwarding address.

*See next page for sample Progression information*

## EXAMPLE OF PROGRESSION TEXT

*REMEMBER THERE ARE MANY DIFFERENT ROUTES TO PROGRESSION AND AWARD and the text you see on your page will reflect your results and the instructions will vary accordingly.*

### My Progressions

Congratulations, you have successfully completed your studies this academic year and can progress to the next year of your studies.

Enrolment for 2024/25 will open in mid-August and you will be sent further details via your University e-mail address at this time.

In some exceptional circumstances you may be able to resit modules. If you think this may be applicable to you please speak with your [School Helpdesk](#) who will advise if this is possible. Full details about resitting, including fees, and how to apply are available on the [Optional Resits](#) page on the [Results and Progression website](#).

### Questions and Appeals

If you have a question about your results or progression decision, please contact your School Administration team in the first instance. If this does not resolve the issue and you are considering submitting an academic appeal, please read the information available on the [Appeals webpages](#). An appeal may only be submitted on certain limited grounds and the standard appeals deadline for Undergraduates is 5pm on **Wednesday 24 July 2024**.
